Identify your Acer product and we will provide you with downloads, support articles and other online support resources that will help you get the most out of your Acer product. Lenses: Nearly any kind of lens will work for aurora photography but, since the aurora can cover huge areas of the sky, a wide-angle lens would be a much better choice. Equally important is that the lens be as 'fast' as possible (i.e., have a small f/ratio like f/2.8, f/2 or smaller).
