Are you concerned about passing? You don't have to be, my study guide is the best black seal license study guide out there, and our price point is competitive with guides that cost 6 or 7 times more. Black Seal, Low-Pressure Boiler Operator Overview: The Black Seal, low-pressure license is required for boilers over 100 hp and less than 15 pounds pressure steam. If it's a hot water heating system, the boilers can be 160 pounds per square inch with a water temperature of 250° Fahrenheit. Many different industries use High-Pressure boilers for central heating systems and many other applications. The water in boilers is used to produce steam which generates energy for other processes. High-pressure boilers require specialized care to operate. Do you think you have what it takes to operate them and understand their use?
