by Gael O'Brien. Merck CEO Kenneth Frazier recently said in an interview, "There are lots of examples of companies that have lost their souls, which is a funny word to use, but companies do have souls.". Consider the implications when leaders believe their company has a soul; how that impacts their wanting to be more vigilant against causing harm or ethical meltdowns. Business ethics (also known as corporate ethics) is a form of applied ethics or professional ethics, that examines ethical principles and moral or ethical problems that can arise in a business environment. It applies to all aspects of business conduct and is relevant to the conduct of individuals and entire organizations. These ethics originate from individuals, organizational statements or ...
