The Internet-only Manuals (IOMs) are a replica of the Agency's official record copy. They are CMS' program issuances, day-to-day operating instructions, policies, and procedures that are based on statutes, regulations, guidelines, models, and directives. The employee manual is the opportunity for management to clearly communicate with new staff members the policies and procedures of the organization. This manual will contain the materials that employees will refer to often throughout their employment. It should be complete and concise and the employee should acknowledge receipt of the manual. A policy manual is a collection of documents that define an organization's rules, policies and procedures, and helps staff and management run the business. Policy manuals may be offline, paper documents and/or virtual documents, which are stored electronically. Manuals

The CMS Online Manual System is used by CMS program components, partners, contractors, and State Survey Agencies to administer CMS programs. It offers day-to-day operating instructions, policies, and procedures based on statutes and regulations, guidelines, models, and directives.
