

# Download Manual For Mossberg 410 Ga Shotgun

First transaction ever with Buds and it was great. Love the 90 Day Layaway and it was shipped quickly. Will be buying from Buds again soon! As for the Saiga .410 it functions perfectly with 2.5 inch bird shot to 3 inch magnum loads. Mossberg 500 is a series of pump action shotguns manufactured by O.F. Mossberg & Sons. The 500 series comprises widely varying models of hammerless repeaters, all of which share the same basic receiver and action, but differ in bore size, barrel length, choke options, magazine capacity, stock and forearm materials. Model numbers included in the 500 series are the 500, 505, 510, 535, and 590 Break-action shotguns packed with features and refined details traditionally reserved for high-end double guns. FEATURES: Choice of shell extractors or ejectors, corrosion resistant chrome-lined chambers and barrels, tang-mounted safety with integrated barrel selector, dual locking lugs ensure solid lock-up and long-term reliability.
