New Holland TL80 Opinions - posted in Tractor Talk: Been looking to add another 80-100hp cab tractor and my dealer left a message to say they may be getting one in on trade. Its a New Holland TL80. I dont know the details as far as the year, hrs, ect. I currently have a TL100A and love the tractor. Im just not that familiar with the TL80. Dont really see many of them around my area.
