

Download Nissan Bluetooth Manual

Bluetooth is a wireless technology that enables connectivity between multiple electronic devices by utilizing a 2.4 GHz radio spectrum that has a range of approximately 30 feet. Bluetooth will allow you to use your cell phone hands-free in the vehicle. Despite the fact that Bluetooth® is a global standard, many different versions are implemented in today's mobile devices. Every version offered may not support the profiles necessary to successfully communicate with the Nissan Bluetooth® Hands-free Phone System in your Nissan vehicle; therefore, only certain devices have been approved by Nissan. OWNER'S MANUAL . NISSAN CONSUMER AFFAIRS DE-PARTMENT For assistance or inquiries about the NISSAN Navigation System (if so equipped), NISSAN warranty, service or general questions, contact the NISSAN Consumer Affairs Department at: ... Bluetooth® Hands-Free Phone ...2018 ROGUE OWNER'S MANUAL and MAINTENANCE INFORMATION For your safety, read carefully and keep in this vehicle.
