

Download Not Fit For A Dog The Truth About Manufactured Dog And Cat Food

In summary, as a cat's natural diet is low in carbohydrates, they are not designed to digest carbohydrates. Grain is added to dry cat food because it is mechanically necessary in processing the food and they are less expensive than meat, not because carbohydrates are healthy or necessary for your cat. Dog food is food specifically formulated and intended for consumption by dogs and other related canines. Like all carnivores, dogs have sharp, pointed teeth, and have short gastrointestinal tracts better suited for the consumption of meat than of vegetable substances. In spite of this natural carnivorous design, dogs have still managed to adapt over thousands of years to survive on the meat and ...Did you know that these Dangerous Dog Food Ingredients in Commercial Dog Food Cause Diseases, Illnesses, Allergies and Death. They are legally allowed, approved and added to our companion animals food by government agencies that monitor our pet food industry. Allergies, cancer, obesity, and early death can be reduced by eliminating the following harmful ingredients from their diet. This is a very thorough and extensive 35 page website about allopathic, holistic and integrative veterinary, cat / dog nutrition and what BigPharmaMafia, bad veterinarians and pet food companies who make very low-quality pet foods don't or won't tell you.
