

# Download Privacy Lost How Technology Is Endangering Your Privacy

This has been a contentious year for Chinese telecommunications vendor Huawei, which has endured both outright bans in some countries, as well as a number of major carriers bowing to government pressure by excluding Huawei from their 5G plans. “This is another sobering indicator that Congress needs to step up and take action to protect the privacy and security of social media users,” Senator Mark Warner, a Democrat from Virginia and ...Get the latest science news and technology news, read tech reviews and more at ABC News. Global Positioning System, commonly abbreviated as GPS, is mostly used as a map, to get people where they need to be on time. While you can use it to avoid traffic and save fuel or gas, GPS can be used for much more including animal tracking, gaming, and farming.
