What is PhET? Founded in 2002 by Nobel Laureate Carl Wieman, the PhET Interactive Simulations project at the University of Colorado Boulder creates free interactive math and science simulations. You're currently viewing our resources for Legal Studies. For additional assistance, you should refer to the discussion forum for this course. We've noticed you're using a version of Internet Explorer that is out of date and may not support all the features on our website. For a better browsing experience, we suggest upgrading to a newer version of Internet Explorer. Mars Science Laboratory (MSL) is a robotic space probe mission to Mars launched by NASA on November 26, 2011, which successfully landed Curiosity, a Mars rover, in Gale Crater on August 6, 2012. The overall objectives include investigating Mars' habitability, studying its climate and geology, and collecting data for a manned mission to Mars. The rover carries a variety of scientific ...
