My name is Mike Dawes, I'm a retired Cambridge UK Chartered Engineer (CEng/PE) and classic car enthusiast. I've designed the unique EP, GB and US patented* DIY-friendly MR1®** car lift. When lowered, this comprises two long shallow ramps supported by pivots at the upper ends. Buy Vehicle Lifting Tools & Machines and get the best deals at the lowest prices on eBay! Great Savings Free Delivery / Collection on many items One of Caulfield Industrial's major strengths is in the provision of maintenance, repair and operation (MRO) engineering tools and equipment to large manufacturing facilities and small engineering workshops in Ireland. Vehicle service ramps for quality servicing. Raising a car into the air is imperative for carrying out certain checks and repairs, as looking under the bonnet can only take you so far.
