We have a huge collection of solutions and testbanks. We have been uploading solutions and testbanks but the product you are looking for may not. The shallow water equations are a set of hyperbolic partial differential equations (or parabolic if viscous shear is considered) that describe the flow below a pressure surface in a fluid (sometimes, but not necessarily, a free surface). The shallow water equations in unidirectional form are also called Saint-Venant equations, after Adhémar Jean Claude Barré de Saint-Venant (see the related ...Free Physics Books - list of freely available physics textbooks, manuals, lecture notes covering classical mechanics, thermodynamics, electromagnetism, optics, quantum physics, atomic and nuclear physics, astrophysics, and more. A A Angstrom. A DC steering magnet. A-Line The transport line from the beam switchyard (BSY) to End Station A (ESA). A-Scale Sound Level A measurement of sound approximating the sensitivity of the human ear, used to note the intensity or annoyance of sounds.
