

Download The Green House New Directions In Sustainable Architecture

The award-winning project The Green Building in Louisville, KY opened in the Fall of 2008 in the East Market District, the heart of NuLu, Louisville's arts district. Renovation of the 119 year old masonry structure, a former dry goods store, was commenced by owners Augusta and Gill Holland in spring 2007 when they decided to become the first commercial building in Louisville KY to go for LEED ...Environmentally sustainable design (also called environmentally conscious design, eco design etc.) is the philosophy of designing physical objects, the built environment, and services to comply with the principles of ecological sustainability. Fig. 1 shows a roadmap of connecting tourism industry with sustainable development around the world. Since the late 1980s, the research in tourism field has given substantial focus on the issue of sustainability (or sustainable development) (). At that time, the concept to connect tourism activity and the environment, known as "alternative tourism", was proposed and developed ().
