

Download Toyota Tacoma Maintenance Manual Transmission Fluid

Although the Toyota Tacoma doesn't require changing the transmission fluid as often as your engine oil, it's recommended you replace it more often once your truck goes over 100,000 miles. The process is cheap and doesn't take too much time. The manual transmission fluid in your Toyota lubricates the transmission gears and makes it easy for you to change gears without damaging the internal transmission components. Since the planetary gear system on Toyota transmissions produces a lot of heat, you should replace your Toyota transmission fluid at least once every two years. Toyota Tacoma Owners Manual: Maintenance data (fuel, oil level, etc.) ... Using automatic transmission fluid other than "Toyota Genuine ATF Type T-IV" may cause deterioration in shift quality, locking up of your transmission accompanied by vibration, and ultimately damage the automatic transmission of your vehicle. ...
