An expert differs from the specialist in that a specialist has to be able to solve a problem and an expert has to know its solution. The opposite of an expert is generally known as a layperson, while someone who occupies a middle grade of understanding is generally known as a technician and often employed to assist experts. A person may well be an expert in one field and a layperson in many ... In the next five years we will focus on the following actions: Developing skills for generating data and developing knowledge about evolving livelihoods, the drivers of change (demographic, socioeconomic, climatic, environmental), their impacts on mountain poverty and social and gender structures, and emerging challenges and opportunities for livelihood enhancement;
