Fazal assesses the unintended consequences of the proliferation of the laws of war for the commencement Wars of Law: Unintended Consequences in the Regulation of Armed Conflict, Tanisha M. Fazal (Ithaca, N.Y.: Cornell University Press, 2018), 342 pp., \$39.95 cloth.. Tanisha Fazal's recent book takes a broad, sweeping look at trends in the laws of war over the last hundred years, covering both interstate and intrastate warfare. In Wars of Law, Tanisha M. Fazal assesses the unintended consequences of the proliferation of the laws of war for the commencement, conduct, and conclusion of wars over the course of the past one hundred fifty years. Because a declaration of war brings burdensome legal consequences, the simplest approach is to find a euphemism to describe the conflict. Ever since World War II, countries have been reluctant to officially declare war on one another, even after they appear to be fighting one.
