DOWNLOAD Mercury and Mariner outboard online service repair manual pdf straight to your computer in just seconds, fix your problems now! I traded for a Gamefisher 9.9 recently. It seems to be in perfect condition considering its age. Compression is 120 on both holes. The previous owner rebuilt the carb but said it wouldn't stay running. It has spark jumping 7/16 on the bottom cylinder but has very little spark on the top. Maybe it will jump a couple of millimeters.
